Connect Shell to Managed Instance

`connect` *command*

Name

connect

SYNOPSIS

connect <host-ip> <host-port>

DESCRIPTION

This command is used to connect the Shell to a managed instance. The parameters <host-ip> and <host-port> are optional. If you do not specify them, the shell will attempt connecting to 127.0.0.1:3435.

PARAMETERS

Optional Parameters

- <host-ip>   -   The host IP address of the system the Shell will connect to.
- <host-port>   -   The host port of the managed instance, which the Shell will bind to.

EXAMPLES

connect 10.65.208.215 3435
